1. WORLD OF WARCRAFT CLAN DESCRIPTION

They call us "bad". We're beautifully ferocious. We're strong creatures who will not run and hide no matter the cost. This club is for the Horde. We're a family of misfits who all belong here. Please be respectful to the others. There is enough war and bloodshed on the battlefield without it being here.

2. SPLAT ATTACK DIABLO IMMORTAL CLAN DESCRIPTION

Description

We are a band of fun loving misfits who love the thrill of the kill and finding shiny things! No paragon requirements if you are willing to grow together. We are family... NO ONE is left behind. OooohRah!

Email Welcome

Subject: Prepare to Splat

Greetings fellow misfits. It's great to have you here. We hope you find a home here. You are now part of our family. Don't hesitate to give us a shout if you need help advancing in your shadow adventures. We enjoy running together in parties, helping our fellow members, and growing together. Once again, welcome to the clan!!

Brief Ingame Chat Description

A clan family that loves the thrill of the kill and finding shiny things! Let's grow stronger together

3. DJ BIO WRITTEN FOR THE D-CYPHER WEBSITE

D-Cypher has been honing his craft since he first hit the decks in the early 90's. His unique style of mixing was born out of the Florida club scene. A fan of music and movies he's skilled at merging each with ease.

Samples of Copy Written by Traci Cameron of Update Digital Solutions

With attention to the slow build he evokes a swell of crowd anticipation that has it's finale with an explosion of frenzied dancing. D-Cypher is a fan of his fans. He feeds off of their spirit and returns it to them through the pounding of the speakers. D-Cypher's shows are filled with an intoxicating level of energy. The crowd leaves exhausted, but very satisfied with the time spent. D-Cypher creates a variety of music in many different styles (EDM, Doomcore, Trance, etc...). He's got something for every event, age group, and interest.

4. BEYOND STRANGE GROUP DESCRIPTION

We are those who live with our eyes wide open. We see what others hide themselves from. We are the true believers. We are the unique. Beyond Strange is a place where lovers of all things different can come together. There's bigfoot, aliens, remote viewing, numerology and astrology, ghosts, crypids, and SOOO much more.

5. SEWING MACHINE SALE DESCRIPTION

This treadle sewing machine was produced at the turn of the century by the Bruce Sewing Machine Company out of Springfield, IL. It is a treadle machine with cabinet. The handwheel moves freely. The paint is bright and clear on all adornments. Whether you're looking to experience the joy of historic sewing or you simply want it for the beautiful decor that it provides this is the thing for you!

6. WEDDING VOW

From the moment we met I knew you were the part of me that was missing. You were the part of my soul that I'd been searching for. You have been my best friend, mentor, playmate, confidant and my greatest challenge. But most importantly, you are the love of my life and you make me happier than I could ever imagine and more loved than I ever thought possible. Your love for me has made me a better person.

Samples of Copy Written by Traci Cameron of Update Digital Solutions

My husband, I vow to love you with my entire heart. I promise to encourage and inspire you, to laugh with you, and to comfort you in times of sorrow and struggle. I promise to be kind, unselfish, respectful, and trustworthy. I promise to encourage your compassion because that is what makes you unique and wonderful.

I promise to nurture your dreams because through them your soul shines. I promise to help shoulder our challenges for there is nothing we cannot face if we stand together. I promise to be your partner in all things - not possessing you, but working with you.

Together we will face all of life's experiences and share one another's dreams and goals. Now we will feel no rain, for each of us will be a shelter for the other. Now there will be no loneliness, for each of us will be a companion to the other. There is only one life before us.

7. WEBSITE FEEDBACK FOR LUNAR LOTUS HENNA DESIGNS

Amber's designs are a source of inspiration for me with my own graphic art. I find her designs intricate and playful. She takes a lot of pride in her work. She not only practices it, but studies it, daily. Amber is a very kind and giving person. She cares for her clients and truly wants them to be happy with their henna.

Amber is a responsible, punctual person. If she agrees to it she completes it. She has a desire for her work to be enjoyed and treasured. With that in mind she's very receptive to client comments. Good and bad. She understands that the good is always nice to hear, but the bad helps you grow.

Henna is Amber's passion...and it shows!

8. WEBSITE CONTENT FOR COALITION FOR PET PROTECTION

Animals have no voice. It's up to us to be their voice. It's up to us to speak out and speak up for them. There are people out there that would like to do animals harm. People who have control issues and feel the need to have power over the

Samples of Copy Written by Traci Cameron of Update Digital Solutions

powerless. People who have anger issues and an animal is the closest or easiest target to release that anger. People who would hurt an animal for no other reason than just to see it hurt. Lastly there are people who hurt animals for profit. This could describe someone in a dog fighting ring as well as someone who overbreeds or collects animals.

If you're interested in helping CPP make a more comfortable life for animals in need please get in touch with us. Volunteering is more than saying you love animals and want to help them. Volunteering is having the dedication to prove that adoration. The animals are innocent and rely on us for their every need. As a volunteer they rely on you. Volunteering can be a tiresome job, but one that is so worth it.

9. BLOG DESCRIPTION

Some days I have it all together and some days I'm a pretty little mess. Join me on the wild ride that is my life. Step inside my head for a minute or two. I don't have a direction or a theme for this blog. I'll be writing about whatever pops into my head or is going on in the world.

10. REFERENCE FOR AMBER

Amber and I have been acquaintances for a couple of years. We'd see one another at mutual events. I always enjoyed her company and looked forward to seeing her. I recently had the pleasure of working with her on a more professional level. I approached Amber because she was doing henna and I was trying to build a portfolio for my budding graphic design business.

Amber's designs are a source of inspiration for me. I find her designs intricate and playful. She takes a lot of pride in her work. I have found Amber to be a responsible, punctual person. If she agrees to it she completes it. She has a desire for her work to be as described and proofread for errors. With that in mind she's very receptive to helpful criticism. She understands that the good is always nice to hear, but the bad helps you grow.

Samples of Copy Written by Traci Cameron of Update Digital Solutions

I would recommend Amber for any position she would apply for. She's an outgoing individual with a bubbly personality that's infectious. She's not only witty but has a sharp mind as well. I believe her to be the type of person who is eager to learn and advance in any area that she can. She's not afraid to learn new things in order to improve herself and her department.

11. REFERENCE FOR CHELSEA

I have known Chelsea since 2016. We met while I was facilitating a support group at The Orchard. She was a co-facilitator of mine for a short time. I found her to be a very pleasant person who was very caring and had concern for others. Chelsea was very easy to work with. She listened to hear and to understand not to respond. The other person's thoughts were always more important than her own.

Chelsea brought a lot of brightness and life to the group. At the start of a session she would bring an inspirational quote or story. It was a great way to break the ice, make the people feel comfortable, and bring some hope and happiness into their lives if only for an hour.

I feel that Chelsea is a very capable person. She has no difficulty or apprehension when it comes to learning new things. She strives to be the best person that she can be. Any company would be lucky to have Chelsea on their team.

12. A DRUMMER'S WEBSITE BIO

I have always been into music. I began playing piano what I was 4 years old. A few years later I started being in competitions. I did well at memorizing and playing in front of judges. When I turned 14 I finally received the highest score given - Superior Plus.

The love for drumming was with me even during those piano years. When I'd listen to music I was drawn to the percussion sound. My favorite bands were those who put the drums in the forefront.

Samples of Copy Written by Traci Cameron of Update Digital Solutions

As I grew I continued to be interested in music. Rock was always my favorite genre, but I discovered that I enjoyed other types of music as well. Music like ska, punk, alternative, techno, swing, and big band.

I have music with me near constantly.

As I work at my computer music is pumping through my speakers. While sleeping music is on helping me on my way to good dreams. In 2007 I set off to finally live my dream of playing the drums. I bought a modest kit then replaced the cymbals with Zildjians'. Every birthday and Christmas that passed I was given drum items. Sticks, a tuning key, a stick bag, a practice pad, and drum books were a few of the exciting gifts.

I have had a personal instructor for some time. I've come a long way with him. I play right as well as left-handed. I also play a double bass pedal. I'm having the time of my life playing and learning all that I can. I've never been as comfortable with anything as I am with my drum kit.

13. STAFF BIO

John is Upstate Digital Solution's consultant, advisor, and analytical thinker . He's the guy you go to when you have questions about what equipment or software you should be using. John's extensive background includes programming, consulting, instructing, repair, website design, and system analysis. Fueling his success is John's fascination with puzzles and his enjoyment of a good challenge. Following his thirst for knowledge John can be found quite often searching for information to advance his technological goals.

14. STAFF BIO

Traci has a long history in the computer industry. Through Upstate Digital Solutions Traci's goal is to give service that is unique, high quality, as well as something that will bring attention and greater success to her clients. She began developing websites, programming, and instructing in 1993 and has been going strong ever since.

Samples of Copy Written by Traci Cameron of Update Digital Solutions

While able to tackle other IT areas Traci's passion is graphic art. She creates eye-catching graphics that can be used for flyers, logos, business cards, banners, brochures, websites, etc...

15. COMPANY MISSION STATEMENT

Upstate Digital Solutions was founded in 2021 in the southern tier of upstate New York. With over 15 years in the industry It's founders have grown with the technology giving them a thorough understanding of it's uses, advantages, and affordability. Upstate Digital Solutions aspires to give our customers the very best service for their dollars. We strive for a quality product along with a satisfied customer through communication, dedication, experience, and an available, friendly staff.

16. SERVICE DESCRIPTION: GRAPHIC ART

Let Upstate Digital Solutions be responsible for the design and execution of the creative concepts used for the marketing of your organization. Our team has detailed knowledge of graphic design, layout design, and typography. For you we will design a logo that is authentic, timeless, memorable, and visually distinct.

17. SERVICE DESCRIPTION: PHOTOGRAPHY

Photography isn't just about simply showing what you have to offer. It's about creating a connection, mood and feeling that your consumers can identify with. High quality photography says that you care about how your brand is perceived by potential consumers. They will understand the value and distinction of your brand and their eyes will be kept on you not your competition.

If you want your business to generate sales and conversations you need bright clear pictures of what you are offering. You need images that can visually explain your business to the consumer. Most shoppers will want to see every element of your product. In order to close the gap between you and your competition new consumers month over month, you need photography that captivates and grabs their attention.

Samples of Copy Written by Traci Cameron of Update Digital Solutions

Photography allows you to highlight the standout elements of your inventory. Whether that's the way your products are designed, the service model you offer or simply your brand presentation. Show off what makes you different in your images.

Photography is constantly influencing our purchase behaviors. A customer is going to be drawn toward the brand with images that spark a feeling of intrigue. The images Upstate Digital Solutions will capture can be used to market and advertise your business to the masses.

18. SERVICE DESCRIPTION: COMPUTER ASSEMBLY

Upstate Digital Solutions work directly with you designing and implementing computer systems to meet your every need. We create computer systems to meet the demands of the end-user or organization. We will start with a client consultation. This discussion allows us to understand how your goals correlate with technological needs. Next we determine what types of systems and computer programs would best serve those goals.

Adding on new systems to a business can obstruct the company's regular operations. We plan out our actions ahead of time to cause the least amount of interruptions. We spend a lot of time testing the newly created system with real world scenarios. This might include having the company run reports or input data, which allows them verify what parts of the system require modification.

This valuable service is not only available to businesses, but to the end-user as well. When you purchase a pre-built computer from one of those massive manufacturers, you get whatever options they decide to install. This means that you could be paying for parts that you don't need and don't want. Designing and piecing together a custom system gives you exactly what you want – nothing more, nothing less.

19. SERVICE DESCRIPTION: WEBSITE DESIGN

A pleasant and well-structured website is sure to get the attention of the public. Detailed descriptions, photos, positive feedback, and contact page will be your key to success. Website hosting services are basically the plot of internet land that your website storefront sits on. Even if you have a presence on Facebook it's important to have a website too. Why would you stop at only one avenue for advertising? You're missing out on a huge client base that's out there waiting to spend money with you! Not everyone has or likes Facebook. Facebook is great for updating or providing quick notes to your customers, but it's very limited when compared to the power of a website.
